Website Design Makeover

If you need to update colors, “look”, layout, feel, etc of your site, maybe this service is for you. Price to be discussed based on the size and complexity of your website – this service would be done after a site audit (\$200) unless you just send me email of design changes you want and trust me to implement them.

Monthly Content Creation on Pages or via Blog Posts or YouTube videos

Part of getting found on the web involves putting out consistent content people will find. This could be extra blurbs or content on pages you already have, or new blog posts every month Greg would write based on bullet points you shoot my way or just online research of pertinent topics related to your business, with help of AI. These blog articles could also be converted in minorly animated graphic YouTube videos with graphics and words in video accompanying the spoken audio, or of Greg or someone else on the camera speaking.

2 blog articles a month or 2 hours of page updates/additions - **\$150/mo**

2 YouTube videos a month - **\$300/mo**

Social Media Monthly Content

Based on your website content and your products, we will come up with creative, catchy, and sharp looking graphics and text to be posting on your Social Media profiles to attract more people to your business.

Weekly posts to all your social media profiles. Give us prompts if you are looking for something specific a certain week. - **\$200/mo**
